On 23 and 24 September 2021, the [International Women's House](#) in Rome will host the **RI-TRATTI Festival: from oneself for the others**. The Festival will celebrate the courage and experience of the protagonists of **HEAL project** focusing on fanzines as an engine of discussion on the global phenomenon of human trafficking, insisting on the need to improve services for psychological support and labour inclusion of women, so that they can orient themselves and plan their future.

A two-day festival, curated by [Libera contro le mafie](#) and [CESIE](#), for a full immersion between vulnerability and psychology, support and inclusion, migration and human trafficking in which the fanzines become a communicative bridge and a more intimate expression of the personalities of the authors.
